Canadian Data Report of Fisheries and Aquatic Sciences

Data reports provide a medium for filing and archiving data compilations where little or no analysis is included. Such compilations commonly will have been prepared in support of other journal publications or reports. The subject matter of data reports reflects the broad interests and policies of the Department of Fisheries and Oceans, namely, fisheries and aquatic sciences.

Data reports are not intended for general distribution and the contents must not be referred to in other publications without prior written authorization from the issuing establishment. The correct citation appears above the abstract of each report. Data reports are abstracted in *Aquatic Sciences and Fisheries Abstracts* and indexed in the Department's annual index to scientific and technical publications.

Numbers 1–25 in this series were issued as Fisheries and Marine Service Data Records. Numbers 26–160 were issued as Department of Fisheries and the Environment, Fisheries and Marine Service Data Reports. The current series name was introduced with the publication of report number 161.

Data reports are produced regionally but are numbered nationally. Requests for individual reports will be filled by the issuing establishment listed on the front cover and title page. Out-of-stock reports will be supplied for a fee by commercial agents.

Rapport statistique canadien des sciences halieutiques et aquatiques

Les rapports statistiques servent à classer et à archiver les compilations de données pour lesquelles il y a peu ou point d'analyse. Ces compilations auront d'ordinaire été préparées à l'appui d'autres publications ou rapports. Les sujets des rapports statistiques reflètent la vaste gamme des intérêts et des politiques du ministère des Pêches et des Océans, c'est-à-dire les sciences halieutiques et aquatiques.

Les rapports statistiques ne sont pas destinés à une vaste distribution et leur contenu ne doit pas être mentionné dans une publication sans autorisation écrite préalable de l'établissement auteur. Le titre exact paraît au-dessus du résumé de chaque rapport. Les rapports statistiques sont résumés dans la revue *Résumés des sciences aquatiques et halieutiques*, et ils sont classés dans l'index annuel des publications scientifiques et techniques du Ministère.

Les numéros 1 à 25 de cette série ont été publiés à titre de relevés statistiques, Services des pêches et de la mer. Les numéros 26 à 160 ont été publiés à titre de rapports statistiques du Service des pêches et de la mer, ministère des Pêches et de l'Environnement. Le nom actuel de la série a été établi lors de la parution du numéro 161.

Les rapports statistiques sont produits à l'échelon régional, mais numérotés à l'échelon national. Les demandes de rapports seront satisfaites par l'établissement auteur dont le nom figure sur la couverture et la page du titre. Les rapports épuisés seront fournis contre rétribution par des agents commerciaux.

ABSTRACT

Newbould, K.A. 1989. North American Atlantic Salmon Tagging Programs. Can. Data Rep. Fish. Aquat. Sci. No. 730

This data report provides summaries of Atlantic salmon (Salmo salar) tagging programs carried out in North America for the years 1974-1985. Agencies contributing to this report are listed in the introduction. Data are divided by agency and subdivided by stage, stock type, NAFO division area of release, location and date of release, type and color of tag, series of tag numbers, and actual number released.

RÉSUMÉ

Newbould, K.A. 1988. North American Atlantic Salmon Tagging Programs. Can. Data Rep. Fish. Aquat. Sci. No. 730

On présente un aperçu des programmes d'étiquetage de saumon de l'Atlantique (Salmo salar) mis en oeuvre en Amérique du Nord de 1974 à 1985. Les organismes ayant contribué au rapport sont émunérés dans l'introduction. Les données sont présentées par organisme et subdivisées par stade de croissance, type de stock, division de l'OPANO où le poisson a été relâché, lieu et date de remise à l'eau, type, couleur, série numérique de l'étiquette et numéro de cette dernière.

INTRODUCTION

The Tag Clearing House of the Canada Department of Fisheries & Oceans has since the mid 1960s gathered data on all North American Atlantic salmon (Salmo salar) tagging programs. These data were originally summarized by staff at the St. Andrews Biological Station, New Brunswick. In the early 1970s the task was transferred along with the Tag Clearing House to the Fisheries & Oceans Regional Office in Halifax, Nova Scotia.

The data in this report are provided by the following government departments and agencies:

1. Canada Department of Fisheries & Oceans

(a) Biological Station, St. Andrews, New Brunswick
(b) North American Salmon Research Centre (NASRC), St. Andrews, New Brunswick
(c) Science Branch, St. John's, Newfoundland
(d) Biological Sciences Branch, Halifax, Nova Scotia
(e) Science Branch, Moncton, New Brunswick.

2. Gouvernement du Quebec - Ministere du Loisir, de la Chasse et de la Pêche.

3. United States Department of the Interior - Fish & Wildlife Service.

(a) Atlantic Sea Run Salmon Commission (ASRSC)
(b) Connecticut River Restoration Program

(c) Merrimack River Restoration Program

4. New Brunswick Department of Natural Resources and Energy.

ACKNOWLEDGEMENTS

Mrs. H. Coleman assisted with the preparation of this report. Mrs. B. Field and Mrs. T. Hart typed the manuscript. K.E.H. Smith reviewed the manuscript and provided editorial comments.
